PnP Health

HIMSS 26

Prevention by Prediction

PnP Kardia

AI-Powered Cardiac Event Prediction System

PnP Platform

Our AI-driven platform integrates seamlessly with existing hospital systems, analyzing real-time patient data to predict critical events before they occur, built on VSee's proven telehealth infrastructure.

Clinical Decision Support —
Actionable alerts with explainable AI insights

Predictive Analytics —
AI models trained on 10M+ clinical records

Real-time EMR Integration —
Seamless connection with hospital information systems

VSee's Telehealth Integration —
Enabling remote patient monitoring and consultation

91.3%
Prediction Accuracy

Up to 6 hours
advance warning

10M+
clinical records

Clinical Validation:
By KUMC, validated
By U of Georgia, in progress
