Why PnP Platform?

Clinical Excellence

AI models validated through rigorous clinical studies at Korea University Medicine

Proven Technology

Built on VSee's enterprise telehealth platform with proven super cyber security features trusted by leading healthcare organizations

Explainable AI

Our CN Engine® provides transparent reasoning for every prediction, enabling clinician trust

Seamless Integration

EMR-agnostic solution that works with existing hospital infrastructure

From Risk to Response

Real time prediction seamlessly triggers custom, hospital-specific actions automatically aligned to your staffing and resources for smarter, safer escalation

Strategic Partners

KU MEDICINE — Clinical Expertise and Data

VSee — Co-Development and Operation

HUNIVERSE — Clinical Validation

CareNest Inc. — CN Engine Modeling

Coming Soon
